We offer a direct billing service for covered inpatient treatment charges through our extensive network of approved healthcare clinics and hospitals across the world. This cashless service provides members and their families with direct access to a wide choice of medical centers across any region simply by presenting their unique membership card when seeking treatment. We are continually expanding our participating facilities, and will work to include your local provider preferences. Please contact WEA for more information.

## In-Patient & Day-Patient Treatment

To help remove some of the worry and stress that many people feel when they require either in-patient or day-patient medical care, we ask that any planned treatment is pre-certified through our 24-hour assistance service, enabling our medical directors and claims staff to coordinate payment for your care. This enables WEA to settle all eligible charges directly with your hospital and physician, removing the need for the insured member to make any pre-payments other than their deductible and any co-insurance applicable.

## Out-Patient Treatment

Where our Provider Network service is not available, anyone requiring medical treatment will need to simply submit any paid claims online, or via email or fax through our centralized service center for reimbursement. All claims information will be available via secure access on your WEA's Member Profile.
